## Internet for All Initiative

---

Washington State Broadband Office (WSBO) ▼

**Washington State Broadband Office (WSBO)**

**Internet for All Initiative**

### Monthly office hours and webinars

We host BEAD and Digital Equity updates with a Q&A opportunity twice a month.

- **[Register for the upcoming Office Hours webinars and view the upcoming schedule \(on Zoom\)](#)**
- **[Register for WSBO's monthly webinar series that spotlights our broadband digital equity work \(on Zoom\)](#)**

The Washington State Broadband Office led a state planning process to develop a **[Five-Year Action Plan \(PDF\)](#)** and a **[State Digital Equity Plan \(PDF\)](#)**. These two plans establish eligibility for federal funding to deliver significant investments for expanding broadband access and to help close the digital divide in Washington.

The Internet for All in Washington initiative creates strategies to ensure reliable, high-speed Internet across the state of Washington, along with opportunities to invest in digital equity programs to make sure that in addition to Internet access, people also have the tools and skill sets necessary to fully take advantage of the benefits that come with digital inclusion.
